

Elektronica symbolen

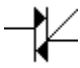

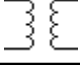

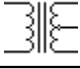

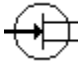

Hieronder een overzicht van elektronica symbolen voor de meeste elektronische componenten. Sommige componenten kunnen echter weergegeven worden door verschillende symbolen. Daarom staat er in sommige gevallen een bekend alternatief achter.

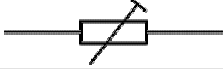

COMPONENT	SYMBOOL	ALTERNATIEF
Aansluitdraad	—	
Aansluitingen algemeen		
Aansluiting gelijkstroom		
Aansluiting wisselstroom		
Aarde chassis		
Afscherming	-----	
Ampere meter		
And poort		
Antenne uitgebalanceerd		
Antenne algemeen		
Antenne loop afgeschermd		
Antenne loop niet afgeschermd		
Batterij		
Batterijen		
Buzzer		
Condensator algemeen		

Condensator doorvoer		
Condensator gepolariseerd (ELKO)		
Condensator variabel		
Contact Breker		
Coax kabel		
Coax plug		
Diode algemeen		
Diode buis		
Diode lichtgevoelig		
Diode Zener		
Draad kruisend en contact makend		
Draad kruisend en geen contact makend		
Exclusive-Or poort (XOR)		
Exnor poort		
Exor poort		
Ferriet kraal		
Galvanometer		
Gloeilamp		
Handset		
Hoofdtelefoon dubbel		
Hoofdtelefoon Enkel		
Integrated Circuit (IC)		

Invertor		
Jack plug 2- contact (mono)		
Jack plug 2- contact onderbrekend		
Jack plug 3 – contact (stereo)		
Kathode direct verhit		
Kathode indirect verhit		
Kathode koude		
Kristal quartz		
LED (light emitting diode)		
Luidspreker		
Mannelijk contact algemeen		
Microfoon		
Motor		
Nand poort		
Negatieve aansluiting		
Neon lamp		
Nor poort		
Ohm meter		
Oortelefoon		
OPAMP (Operational Amplifier)		
Or poort		
Oscilloscoop		
Pentode buis		

Photomultiplier buis		
Photocell buis		
Phone plug 2-Contact		
Positieve aansluiting		
Potentiometer		
Potentiometer		
Relais DPDT		
Relais DPST		
Relais SPDT		
Relais SPST		
Resonator		
Schakelaar draai		
Schakelaar DPDT		
Schakelaar DPST		
Schakelaar tijdelijk contact (bel schakelaar)		
Schakelaar SPDT		
Schakelaar SPST		
Signaal generator		
Smoorspoel lucht kern		
Smoorspoel parallele windingen		
Smoorspoel ijzeren kern		
Smoorspoel met aftakking		
Smoorspoel variabel		

Stopcontact 117-V (amerikaans)		
Stopcontact 230-V (engels)		
Telegraaf/morse schakelaar		
Test punt		
Tetrode buis		
Thermistor		
Thermocouple		
Thyristor		
Transformator lucht kern		
Transformator ijzeren kern		
Transformator primair met aftakking		
Transformator secundair met aftakking		
Transistor pnp		
Transistor npn		
Transistor, Field-Effect, P-Channel		
Transistor, Field-Effect, N-Channel		
Transistor lichtgevoelig (foto transistor)		
Transistor, Metaal-Oxide, Dual-Gate		
Transistor, Metal-Oxide, Single-Gate		
Trimmer		
Triode buis		
Vertraginglijn		
Voltmeter		

Vrouwelijk contact algemeen		
Wattmeter		
Weerstand		
Weerstand variabel		
Zekering
